Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 14 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain or showers for many today, but less windy.

Today:
Sunny spells at first. Thicker cloud and outbreaks of rain then soon into Northern Ireland and western Scotland before spreading into many other parts this afternoon. Parts of southern England dry for much of the day. Less windy than yesterday.

Tonight:
Early evening rain clearing and cloud then breaking leaving clear spells and a few showers. Not quite as chilly as recent nights and wind easing.

Monday:
A mixture of cloud and sunny spells for most. Dry for many, but scattered showers catching parts of England. Thicker cloud and patchy rain developing in the far west.

Outlook for Tuesday to Thursday:
Cloud and increasingly light, patchy rain will sink southeast during Tuesday. Many northern and western areas then becoming mainly settled, whilst some eastern areas see showers and colder weather Thursday.
